

FINAL TRIBUTE TO MANILA BAY HERO

Admiral Dewey Buried at Arlington Cemetery

Two services held for world's ranking naval officer—President and many other notables attend funeral—Chaplain Frazer in charge of services.

Washington, Jan. 20.—Admiral George Dewey hero of the battle of Manila Bay and the world's ranking naval officer was buried today at Arlington National Cemetery after solemn ceremonies, reflecting the nation's final tribute of honor and affection.

Two services were held the first a private home ceremony and the second an impressive service in the rotunda of the capitol where the president, the supreme court, the cabinet, the senate and house, the diplomatic corps and others prominent in official and civil life went to honor publicly the dead hero. Afterwards the streets lined with thousands of notable company and a large escort of military and naval forces followed the casket to Arlington.

Given Signal Distinction
The midshipmen from Annapolis, remembered by the admiral while he was on his death bed, as "my friends" were given the signal distinction of honor escort and in compliance with his request, they accompanied the body from the residence to the capitol and later were the only military unit to enter the cemetery in organization formation.

The arranged with care to express a national tribute the funeral and burial ceremonies were both simple and brief. There was no funeral at the home or at the capitol. Both services were conducted according to Episcopal rites, the first being read by Dr. Roland Cotton Smith the family minister and the second by Chaplain J. B. Frazer, who was the Olympia's chaplain at Manila Bay.

Chaplain Frazer also, conducted the commitment service when the body was laid in the mausoleum.

Federal Government Halted
During the service the entire machinery of the federal government here was halted. Private business was suspended an hour and all flags were at half mast. Observances of a similar kind were held on every American naval vessel afloat and were emphasized by the firing at noon by every senior ship of a salute of nineteen guns, two more than the regulation prescribed for an admiral's salute.

The imposing procession moved at half step from the capitol to Arlington and entered the cemetery grounds two hours after it had started. As it wound slowly out of the city, across the Potomac and began the approach thru the Virginia hills the batteries at Fort Myer began at minute intervals a 19 gun salute. Later when the casket was placed in the vault, the salute was repeated.

At the head of the procession thru the cemetery marched the midshipmen and their land. As they neared the vault they divided into two columns which passed the flag draped caisson bearing the casket followed by Chaplain Frazer and Dr. Smith, the president and the cabinet and ranking officers of the army and navy.

Twelve sailors from the Presidential Yacht Mayflower and the Seaman Gunners School bore the casket to the vault and placed it as the midshipmen's band played "Nearer, My God, to Thee."

Fire Three Sharp Volleys
The last service was read and then a squad of midshipmen fired three sharp volleys and a chief master-at-arms Charles Mitchell, who was with Dewey at Manila Bay sounded "taps."

Only one floral decoration that of Mrs. Dewey was placed on the casket. It was selected by George Dewey, only son of the admiral, from among the hundreds banked against the vault and carried to the ground around it. One huge gold encased holding hundreds of American battle roses was presented by the officers of the Atlantic fleet.

Secretary Daniels had invited all living former secretaries of the navy and their assistants to attend the burial services and among those who came were Charles J. Bonaparte, Herbert L. Satterlee, Charles H. Allen and Frank W. Hackett.

The body bearers were under command of W. A. Roberts of the Mayflower and the others of the Seaman Gunners school.

CHICAGO THREATENED WITH COAL FAMINE

Mistaken Order From President of Teamsters' Union Causes 2,000 Men to Strike

Chicago, Jan. 20.—A coal famine threatened Chicago today when 2,000 teamsters went out on strike in response to an order issued by Milton Booth, president of the Chicago Coal Teamsters' local, 704, who disappeared.

When Booth was found tonight it was found the order was meant to apply only to the Chicago contracting team owners' association. By some mistake the strike order however, was promulgated at some other place. Many small concerns depending on loads to have been delivered today were compelled to close their doors. A frantic search was made for Booth by the perplexed coal dealers upon whom no demands had been made and who were at a loss to account for the strike, but he could not be located tonight. Every policeman in town was instructed to watch for him.

Meanwhile members of the executive committee, had been rounded up tonight and they were joined in a meeting by Booth with coal dealers. It was then that the explanation of the strike was gleaned. The grievance against the contracting team owners' association was said to be over work of drivers for which more pay was demanded.

Mayor Thompson said that the strike was over.

PORTION OF LONDON SEVERELY SHAKEN

Munitions Factory In Series of Explosions

Scattered Destruction Over Territory Where Works are Located—Center of Volcanic-Like Upheaval In Heart of Working District of Suburban Towns

BULLETIN

LONDON, Jan. 21.—The death toll of Friday night's explosion is now between fifty and sixty according to Lloyd's Weekly News.

In ten hospitals on Saturday twenty-one persons died and there were one hundred and twenty patients receiving treatment in the Weekly adds. In addition 205 persons suffering from lighter injuries were treated.

London, Jan. 20.—A portion of the area of London was shaken severely last night when a chemical plant in which munitions were manufactured exploded, scattering destruction over a considerable section of the territory where the works are located.

The central point of the volcanic-like upheaval was in the heart of the working district of a suburban town. At 6:45 p. m., a series of explosions suddenly transformed the works into a fiery furnace and great masses of burning liquid and timber and red hot iron were hurled high in the air.

Mingled with the deafening crash of beams and girders were cries from the working people. An adjoining flour mill in which a number of women and girls were employed were engulfed. The explosions were the center of a number of fires.

Crowds Swarm District

Crowds of relatives and friends swarmed into the east end district seeking word of those stricken within the section. At midnight while the work of rescue was still in progress the area continued burning brightly and a lurid glare over all London. All available ambulances were requisitioned even the London police ambulances being sent to the scene. School houses and police stations were used as temporary hospitals.

A young army officer who was home on leave told the Associated Press correspondent that he had been thru heavy fighting on the Somme on the front in France, but that nothing he had experienced there came so near shaking his nerve as the explosion, which occurred at a point less than a mile from his home. He said:

"A great flare in the sky lighted up my room and as I dashed into the street the whole sky was ablaze. The explosion shattered my house."

Those who were permitted at the scene of devastation saw many pathetic sights. A young man who hurried his mother and his sister from their house when the explosion began to shake it said:

"The next moment I was blown across the room with the dressing table. Then the ceiling came down and in another instant the house collapsed like cards and I rolled into the street where I found my mother and sister safe."

Fireman Describes Blast

A fireman who witnessed the great blast from a point of vantage described it thus:

"Thru the center of a great flare I saw a huge white ball rise to a great height and then vanish. I saw also molten and blazing masses shooting thru the air to great distances."

In the road a hundred yards from the point of the explosion stood a ten foot boiler which had been lifted over a whole block of houses. Other pieces of machinery were found half a mile away. Describing incidents of the explosion the Central news agency says:

"The detonation was such that miles away buildings were rocked with its force while over that area there was a great destruction of window glass. Fires broke out involving a large flour mill and other industrial concerns while many houses also were enveloped in flames. Firemen, policemen, soldiers and ambulance workers rushed to the scene. The authorities requisitioned motor buses and other vehicles on the spot. Terrible scenes were witnessed when the flour mill which was seven stories high burst into flames. To get such a blaze under control was an impossibility so reluctantly the firemen were obliged to devote their efforts to saving neighboring property. Despite all their efforts the flames rapidly spread over a large area."

Heroic nurses, ambulance men, boy scouts, and girl guides worked to alleviate the sufferings of the injured. One youth returned home from work to find his parents' house had vanished in the great upheaval. He found his way to a hospital and was able to identify the unconscious form of his mother. In a mortuary he found the bodies of his father and sister. There were hundreds who sought relatives and friends in vain."

COMMISSION TAKES DRASTIC STEPS

Serve Notice On Railroads To Appear Committee To Co-operate In Relief Measures

Washington, Jan. 20.—The interstate commerce commission took drastic steps today to relieve the shortage of coal, refrigerator heater, ventilated and insulated cars, serving notice that unless they should appoint a committee within ten days vested with plenary powers to co-operate in relief measures the commission would act independently.

Holding that present conditions are without a parallel in the country's history that "the wrongs are flagrant" and "that in an emergency" any doubt as to its authority to act should be decided in favor of the general public, the commission issued an order requiring the roads to return the original owners all cars of the four specified types on their lines as fast as the cars are delivered and unloaded at their destination. The order will become effective Feb. 1, and will remain in force until May 1.

Commissioners Clark, Clements and Hall dissented from the order.

WAR NEWS SUMMARIZED

Reports of the supposed movements of the unidentified German raider in the South Atlantic and details now suggest that she may have been accompanied by three small submarines acting as scouts. Arrival of the Royal Mail Liner, Drina, at Rio Janeiro eliminated one of the largest steamers from the list of the supposed victims. A strange steamer with four funnels sighted off Ceará, Brazil, steaming at high speed, suggested the possibility that the raider was near the northern coast of Brazil.

The capture of the town of Nanesti, on the Sereth river, by German troops on Friday is the latest important development on the war fronts.

The Russian forces are continuing their counter attacks in the eastern Carpathians and north of the Suchoz valley but the Berlin war office announced that the Russian assaults generally were checked.

There were no important developments on the Russo-German battle line. Quiet was reported on the Macedonian front.

An official announcement by the British government concerning the explosion in east London stated the total number of killed had not been ascertained.

The minister of munitions stated the disaster would make no practical difference in the output of war munitions.

In connection with the failure of the British authorities to identify the street the whole sky was ablaze. The explosion shattered my house."

Those who were permitted at the scene of devastation saw many pathetic sights. A young man who hurried his mother and his sister from their house when the explosion began to shake it said:

HEAR TESTIMONY OF THREE STATE WITNESSES

Harry Spanell Charged With Murdering Wife

Also Under Indictment for Murder of Col. M. C. Butler—Defense Objects To Testimony of Constable—Court Reserved Decision

San Antonio, Tex., Jan. 20.—The trial of Harry J. Spanell, charged with killing his wife at Alpine, last July, was continued here today with the testimony of three state witnesses regarding statements Spanell is alleged to have made in jail after his arrest remained undecided when court adjourned late today until Monday. Spanell also is under indictment for the murder of Lieut. Col. M. C. Butler.

The defense objected to the testimony of J. W. Yates, a constable of Alpine, as to what Spanell said immediately after his arrest and the judge ordered the jury to retire and directed Yates to proceed in order that the admissibility of what he had to say might be adjudged. The court reserved decision.

Yates asserted that after being placed in jail Spanell asked:

"Are they both dead?"

When informed that both his wife, Mrs. Crystal Holland Spanell and Butler were dead Yates said Spanell cried out:

"Oh, my God! Oh, my God!"

Asked why he did the shooting, according to Yates, Spanell replied:

"I don't know."

Yates previously had testified before the jury that he went to the scene of the shooting and saw the bodies of Butler and Mrs. Spanell in the tonneau of Spanell's automobile. He said Butlers body was lying on the floor and that of Mrs. Spanell on the seat. He found a revolver on the front seat of the car, he said, with five cartridges exploded and one still unfired.

Yates is expected to take the stand Monday when the court's decision regarding his further testimony probably will be made.

Not half of the state's witnesses had been examined when court adjourned today. Counsel for both sides expressed the belief that the case will extend well into next week.

Spanell's trial for killing Col. Butler, recently was set for next Thursday as it was believed the present trial would have been concluded by then.

AVIATOR PRONOUNCED OUT OF DANGER

WELLTON, Ariz., Jan. 20.—E. L. Gamble, who returned here tonight from the camp where Lieut. Col. Harry G. Bishop was found Thursday night reported that the aviator was recovering and had been pronounced out of danger. Gamble said Bishop was unable to move when found by the searching party. His legs, Gamble said were swollen and black from feet to knees. Gamble told of passing the night in the Sonora desert in a heavy rainstorm. The searchers gave Bishop their coats to protect him.

The parties that started out tonight to join the expedition commanded by Major Browne returned here at 9 o'clock. Their automobiles sank up to the axles in mud and it was impossible, they said to go more than four miles south of Wellton. Owing to the condition of the ground it is thought the army ambulance could not possibly return with Bishop before tomorrow noon. No word had been received from Bishop or the searchers who stayed with him since Robertson was brought here last night.

Building owners said that little or no warning of the intention of the teamsters to quit work was given them. The men demanded an increase in wages. A few days ago the railroads made coal shipments to Chicago preferred freight and hundreds of cars of coal are now ready for delivery.

It was estimated that nearly 7,000 teamsters stopped work. The men seek \$4 a day, an increase of \$1 over their present wages.

The days when hanging was the customary and accepted punishment for horse and cattle stealing are recalled by a bill introduced in the Illinois legislature. This measure provides a fine of \$5,000 and a penitentiary sentence for automobile theft. But then the stealing of automobiles has been such a popular diversion, especially in Chicago, that some drastic means is necessary if the practice is to be stamped out.

Kansas women are always on the alert for the passage of laws which they think will be of benefit to their sex. Now they are advocating a bill which will require three weeks' publication of any approaching marriage. This law will be all right for those of loyal and steady habits but a trifle dangerous for the fickle-minded. But the real purpose of the law is to make bigamy less likely and it would have a helpful influence in that way.

THE MODESTY OF LINCOLN.

Present day candidates and political leaders who make pre-election forecasts of the vote they will get are not patterning after Abraham Lincoln. In New York recently various autograph Lincoln manuscripts were sold at auction. One of these manuscripts was a prediction written by Lincoln concerning the election of 1864. The great president expressed his belief that he would get 117 electoral votes as against 114 for George B. McClellan. History shows that Lincoln got 212 and McClellan 21. This was a political forecast not of the present day type.

"AS ONE THINKETH"

In zealotness to do something that one really wants to do it is not difficult to figure out that the way has been divinely opened. This must be the situation with Dr. Roessicke, president of the German Farmers union, who said in a recent speech that God had given them the hint which led to the raid on merchant vessels laden with grain from Australia and India. The doctor holds the view too that providence caused

the harvest of the world to be bad so that Great Britain might find it difficult to feed herself. He had evidently not received a copy of the U. S. government's grain report for 1916, with its billions of balance in favor of that year by comparison with all previous records.

SIGNIFICANT FIGURES FROM CANADA.

The records of exports show that Canada is now purchasing five times as many goods in the United States as from the United Kingdom. The sales of this country to Canada in the last fiscal year were \$370,000,000. This relationship of figures did not prevail in the days before the war and it will not prevail long after the war. No wonder that astute business men and financiers are urging that commercial preparation be made for the difficult days which will come later on.

SOUTH ALARMED BY NEGRO MIGRATION.

It will be a strange thing, indeed, if the colored citizens of the south themselves arouse the whites there to change their attitude along some lines. For months there have been press stories about the migration of the colored people in great numbers from the southern states to the northern states—migration to such an extent that the question of labor is becoming a serious consideration. Now it is said that important southern newspapers are giving more space to the discussion of lynching and are urging upon the white people the necessity of stamping out the mob violence which manifests itself in lynchings.

Years ago many of the southern states banished whisky from their products because it was a detriment to the colored race and thus to their own. With the same line of reasoning they should put an end to the lawlessness which has no doubt been a factor in influencing many colored people to seek new homes in the northland where they will not only secure better wages but can live in safety and without the fear of losing their lives thru mob violence.

RELIGION ON THE BATTLEFIELD.

(A Sunday Meditation from the Chicago Post).
Miss Kathleen Burke tells in her new book, "The White Road to Verdun," two stories that are worth thinking over. We recommend them to the meditation of preachers and laymen who are inclined to be dogmatic in the matters of faith.

They are told by a young woman who has had faithful first-hand experience with the great war. The picture of her which we printed Saturday showed her wearing the medals given her by the French and Serbian governments in grateful acknowledgment of her service.

Miss Burke was caring for a French soldier, mortally wounded. In his delirium he addressed her as the sweetheart he had left in some little village in France. "This war cannot last always, little one," he said, "and when it is over we will buy a pig and a cow and we will go to the cure, won't we, beloved?" And then in a conscious moment, realizing that the war was over for him, he began to repeat "Ave Maria." The words halted on his lips; his dazed mind fumbled for the rest of the familiar prayer; he turned to Miss Burke to finish it for him. Deeply moved, she could not trust her voice to speak. A young Mohammedan surgeon, educated in England, was supporting the dying man with his arm. It was he who took up the prayer, saying it slowly as the soldier's lips followed his; and thus the gulf between life and death was bridged by a human charity transcending all creeds.

The other story is told of Rabbi Bloch of Lyons, who was shot at the battle of the Aisne while holding a crucifix to the lips of a dying soldier.

Religion on the battlefield seems a bigger thing than it often appears to be at home.

THE CUP OF PURE COLD WATER.

You may talk about your sherry, and your very richest wine, And the blood of juicy grape when 'tis taken from the vine; You may talk about your coffee, your chocolate and tea, But there's nothing like cold water when it's flowing pure and free, It never leaves you feeling you have wheels inside your head, Nor sets your pulses thumping when you lie upon your bed, It never leaves you thinking you'll have a muddy skin, It never leaves you fearing you may enter into sin, Oh the sparkling, cooling water, it cleanses thru and thru; It's so cheering and inspiring that I offer it to you, So take the brimming goblet, and drink the cooling draught, For the cup of pure, cold water is the finest cup that's quaffed.

S. Adrian Hughes.

THE MODERN BABY.

"The band that rocks the cradle"—but there is no such band. It is bad to rock the baby, they would have us understand; So the cradle's but a relic of the former foolish days. When mothers reared their children in unscientific ways; When they jounced them and they bounced them, those poor dwarfs of long ago—The Washingtons and Jeffersons and Adamsons, you know.

They warn us that the baby will possess a muddled brain If we dandle him or rock him—we must carefully refrain; He must lie in one position, never swayed and never swung, Or his chance to grow to greatness will be blasted while he's young.

Ah! to think how they were ruined by their mothers long ago—The Franklins and the Putnams and the Hamiltons, you know.

Then we must feed the baby by the

schedule that is made, And the food that he is given must be measured out or weighed. He may bellow to inform us that he isn't satisfied, But he couldn't grow to greatness if his wants were all supplied. Think how foolish nursing stunted those poor weaklings, long ago—The Shakespeares and the Luthers and the Bonapartes, you know.

We are given a great mission, we are here, today, on earth To bring forth a race of giants, and to guard them from their birth. To insist upon their freedom from the rocking that was bad.

For our parents and their parents, scrambling all the brains they had.

Ah! if they'd been fed by schedule would they have been stunted so? The Websters and the Lincolns and the Roosevelts, you know.

'The Unwritten Law'

By EDWIN MILTON ROYLE

With An All Star Cast Including

WILLIAM PIKE and ANDREW ROBSON

Has a husband a right to kill the man who ruins his wife and desolates his home? Or has the woman the right to avenge her own dishonor with death? The unwritten law says "Yes". The written law says "No".

SHOULD A GIRL BE TOLD?
New York Evening Mail: "This is a picture in which there are no flaws. It is wonderful. It goes into the exclusive class—in which we have placed only two other features during the last six months."

"Beatriz Michelena's work on the witness stand in 'The Unwritten Law' is the most real and convincing emotion I have seen in picture art. Real Grief, as we know, is grotesque and distressing, if not ludicrous, but Miss Michelena is so restrained, so free from exaggeration that it approaches artistic perfection. It is a very great triumph."

CLOSE BASKET BALL GAME AT FRANKLIN

Springfield Speed Boys Won by a Score of 21 to 18—Hall Crowded to Overflowing.

In one of the greatest games ever played in Franklin the Springfield Y. M. C. A. Speed Boys defeated the Franklin Independents in Marquette hall last night by a score of 21 to 18. The game was witnessed by the largest crowd ever in attendance at a basketball game in Franklin.

The Springfield team which has been known for several years as the "Speed Boys," proved themselves worthy of their name Saturday evening. However, they needed all of the speed they could get for the independents never played a better game than they played last night. The result of the game was in doubt until the final whistle.

The Franklin team covered itself with glory even in defeat for few teams in this section of the state can hold Springfield to such a close score. Walter Teaney playing his last game with Franklin was in wonderful form. He was a host in himself and made eleven of the points credited to his team. Stewart and Becrup gave him able assistance and the guarding of Burnett and Hart held Springfield's score down.

For Springfield brilliant playing was done by Frazer, Wynstene and Jasper. Wynstene in particular did great work registering a total of nine points. Livingston and Frazer were strong in the guard positions for Springfield on the defense, while Frazer also took part in the scoring for his team. The score:

WISH ALEXANDER SHOOT HELD IN JACKSONVILLE

Central Illinois Trapshooters, in Session at Lincoln, Recommend That Tournament be Held in City

The annual registered tournament of the Alexander gun club will be held in Jacksonville, it is recommended by the members of the Central Illinois Trapshooters in Lincoln, are carried out. Jacksonville and Alexander were both formerly members of the league, but last year Alexander was retained and Jacksonville was dropped. Several able marksmen have membership in both clubs and it is probable that, wherever the tournament is held, the two clubs will cooperate. Last year Jacksonville held an independent shoot. The tournaments of the Central Illinois Trapshooters' league attract marksmen of more than state wide reputation and all preparations will be made to make the Morgan county event a success.

Delegates from the Alexander club to Lincoln were Charles Magill and W. T. Craig. Mr. Magill reported that the tournament will be held in September. The choice of the exact date will be left to club members and it is probable that this will be done some time this week. Recommendations of the league regarding the place of holding the tournament will also be acted upon at that time.

ILLINOIS COLLEGE WILL SPEND BUSY WEEK

Three Games are Scheduled and the Team is Not in Best Condition

Illinois college basketball tossers will have a busy time this week, when they play three games. Illinois is not in the best of condition either for three such battles as are billed.

Cox is out of the game probably for the remainder of the season on account of injuries while Tomlinson has been laid up with a bad ankle for several days. Coach Harmon, however, hopes that Tomlinson will be in shape to play by Monday evening against Millikin. Hill or Barnes will be used at forward in place of Cox.

The teams scheduled for the week or at least two of them, are considered two of the strongest in the Little Nineteen conference. Millikin has not lost a game this season. She has defeated Wesleyan, Eastern Illinois Normal and Illinois Normal. Millikin has two of the strongest guards in the business in Coltra and Catlin, but if Illinois plays the ball she has shown in the last few games they will have their work cut out for them.

Illinois Normal will be the opponents of the Blue and White on Saturday afternoon. Normal has defeated Wesleyan and is considered one of the strong teams of the conference. However, Illinois should register a victory in this game.

On Thursday evening the Augustana team will be Illinois' opponents. Not much is known of this team as it has never been seen in this section. Up in the northern part of the state Augustana has been touted as a championship contender. It remains to be seen whether she is or not.

It is probable that Illinois will use the following lineup for the three games, Gaylord, Hill and Barnes, forwards; Tomlinson, Duncomb, center; Cap, Pierce, Spink and Seay, guards. Martin of Bradley will officiate in the Millikin game while it is probable that Catlin will officiate in the Augustana and Normal games.

COLD RAIN ENDS THE FINE WINTER WEATHER

Early Sunday morning it was evident that the time of "fair and warmer" winter days was for the present at an end. Snow and sleet which began to fall at midnight changed soon to a cool, drizzling rain and at 2 o'clock the thermometer stood three degrees above freezing and the rain seemed to be increasing.

As early as eleven o'clock it was sleeting in Carrollton. Late reports from Springfield and Virginia indicated that the rain was general throughout this section. In Quincy early this morning sleet, mixed with rain, was falling heavily.

Mrs. Mary McPhail of South Church street went Saturday to Mt. Sterling to visit her son and daughter.

HEART DISEASE BROUGHT DEATH TO F. M. MORTON

Long Time Citizen Died at His Home at Midnight Saturday—Had Been Ill for Ten Days—Active in County Fair Management.

Francis M. Morton, one of Jacksonville's well-known residents died at his home, 715 South Main street at midnight Saturday. He had been ill for about ten days and death came from an attack of heart trouble.

Francis M. Morton was the son of John and Mary Morton who were pioneer residents of the county. He was born on the old Morton homestead east of the city seventy-five years ago and all his life had been spent in this city. He was the last of a large family of children.

January 27, 1842, he was united in marriage to Miss Maria L. O'Leary who survives him together with two sons, George C. Morton of Chicago and Gilbert W. Morton of this city. For many years Mr. Morton followed the occupation of farming and stock raising on the old homestead east of the city. He was one of the best posted men on fine horses in the country and he dearly loved a good horse. More than twenty years ago he was one of the men instrumental in bringing the stallion Morton here from Kentucky. It being named for Mr. Morton and many of the best horses of the county today are descendants of that animal.

Mr. Morton was active thru all the years of the Morgan county fair association and was one of the men who kept it alive until the old fair grounds were sold to the state and even afterward. Some years ago he was one of the promoters of the Jacksonville driving club. This club leased the land south of the city and the track there was laid out under his direction. Some years ago Mr. Morton retired from active farming and built a residence at 715 South Main street. He has since resided there. He has always kept up his interest in fine horses and has raised several at his city home.

After his removal to the city Mr. Morton took an active interest in civic affairs. He was a democrat in principle, but in the later years of his life he was independent in politics. In 1909 he was a candidate, on an independent ticket for Alderman from the Fourth ward and was elected and served two years in that capacity.

The death of Mr. Morton removes a citizen whose loss will be genuinely felt. He was a man of outspoken convictions yet withal kindly and if he was a friend he was true to the last.

Arrangements for the funeral have not been made.

Nomination of Springfield Attorney For Circuit Bench Practically Certain.

Springfield, Jan. 20.—Through the endorsement late this afternoon of the Sangamon county republican central committee, Senator E. S. Smith of Springfield, former state's attorney, was virtually selected as the G. O. P. candidate to oppose Attorney Edmund Burke, democrat, for the circuit court bench.

Senator Smith's endorsement will be ratified and his official nomination made, when delegates from the seventh judicial district meet here in convention Thursday, January 25.

Reliable Medicine for Distressing Bronchial Coughs

Hoarseness, Tickling Throat, Severe Coughing, All Go When Foley's Honey and Tar is Used.

Enquirer, writes: "For three years I was troubled with bronchial affections"

Bronchitis too often leaves a severe racking cough that weakens the system and paves the way for such grave diseases as pneumonia and pleurisy. Sometimes there is a nervous hacking, worse than anything at night, that is especially distressing and should be relieved as promptly as possible. Foley's Honey and Tar is exactly suited to these conditions. It directly affects the mucous lining of the throat, clearing it of irritation, removing the inflamed membrane and stopping the severe racking cough. Coughs usually grow worse at night and prevent the rest so necessary to one's recovery. It is a remedy to one's recovery. It is a remedy to one's recovery. It is a remedy to one's recovery.

was hoarse and sometimes could hardly speak louder than a whisper. Had to entirely give up singing, and coughed constantly from sore throat day and night. I took Foley's Honey and Tar and got relief. This spring the trouble arose again. I bought a bottle, took five doses, and have the remainder in the bottle on my desk now, to take if another attack develops. It is great for bronchial colds and coughs. * * * Every user is a friend.

NO INSTRUCTIONS FOR JUDICIAL DELEGATES

Democratic County Committee Made No Endorsement at Saturday Meeting—W. N. Haigrove's Friends Asked Instructions for Him.

A meeting of the Morgan county Democratic central committee was held Saturday when delegates were chosen for the judicial convention which will be held in Springfield next Wednesday. The delegates go unopposed although an effort was made by friends of W. N. Haigrove to pass a resolution instructing the Morgan county men to urge his candidacy. A. D. Arnold, chairman of the committee, presided and Haller Higgins was the secretary. The delegates named were Walter W. Wright, Daniel Bahan, A. D. Arnold, M. E. Dunlap, W. A. Masters, O. P. Thompson, W. N. Haigrove, J. W. Clary, J. M. Butler, William E. Thompson and John J. Newell.

No Endorsement.

The general public was not admitted to the meeting but it is understood that considerable feeling developed when the Haigrove supporters were unable to secure much support for their plan of endorsing the Morgan county candidate. They urged upon the meeting that it was an unheard of proposition to refuse to give endorsement to a home candidate when only one such candidate was seeking the support. They cited various precedents to prove this contention but members of the committee who favored an unopposed delegation, which in this case means support for Edmund Burke, the Sangamon county candidate, were largely in the majority.

The nomination of Mr. Burke by the judicial convention was already assured because Sangamon county has instructed delegates and the same is true with Greene county. The delegates from these two counties will give Mr. Burke a majority of all the delegates. The friends of Mr. Haigrove fully recognized this fact but declared that all the Morgan county men should be willing to give Mr. Haigrove the endorsement whether or not they favored his candidacy. The vote to send an unopposed delegation was decisive and the Burke advocates selected the delegates already named.

DON'T CROWD THE MOURNERS.

There is an old saying, "Don't crowd the mourners." Who was the author of it we don't know, but it is often a fitting expression, and is used in this little story. The road law requires automobile drivers to turn out to the left when overtaking and passing another machine or vehicle, but just the other day an A. D. overtook a wagon loaded with logs bound for the saw mill between Concord and Arceneville.

The wagon was on the east side of the road where it belonged when along came an auto whose driver did not wish to turn out on the rough track to pass and signalled the wagon driver to turn out, but he very properly stuck to his track whereupon the A. D. again ordered him out and in language not found in the Sunday school lesson said that if he was only out of the machine he would show him how to get out.

The log man kindly stopped his team and went back to help Mr. A. D. to get out, but something in the log man's looks caused him to suddenly change his mind, for he threw in the clutch and shot by on the left side, if it was rough. Moral: Don't crowd the mourner, especially if he is a strapping young six footer who is able to lift a saw log.

MAY HOLD CONFERENCE ON FARM LOAN ACT

A Number of Local Farmers Plan To Borrow Money Under New Law.

The farm papers and some other publications have announced that mass meetings will be held in county seats in practically all of the states next Saturday, Jan. 27, at 10 a. m., to call public attention to the advantages of the federal farm loan system. The call was sent out by the American Farm Financial league and it is believed that thru the plan of having these meetings held at one common time that a more widespread understanding of the law can be secured than in almost any other way.

A representative of the oldest newspaper at each county seat has been suggested to preside and to invite some of the local leaders in agriculture to form a committee to have full charge of the meeting. A number of Morgan county farmers have seen this notice and wish to attend such a conference. There are six or eight farmers residing in the Concord community who have studied the farm loan act to some extent and are convinced that by this means they will be able to borrow money upon their lands to greater advantage than by the present methods. It is very probable that a conference of the kind referred to will be held at the Morgan county court house next Saturday morning. If plans are perfected due notice of the fact will be given.

HIGH CATTLE PRICES WILL CONTINUE

All Grades of Live Stock Now in Good Demand at City Market.

John T. Alexander of Alexander, Ward and Conover, Chicago livestock commission firm, says in the weekly review of the market just issued that the bulk of the cattle offered has been bringing the highest prices ever when quality and dressing percentage are taken into consideration. Receipts for the week showed a decrease in Chicago, and the medium to pretty good kinds showed an advance during the week of 25 to 40c per hundred. The general outlook is for light receipts and continuance of high prices. Writing about the butcher market and hogs he says:

"We have had a very active butcher market this week, even though selling much higher. Good to choice cows 25 to 30c higher, medium to good cows 25 to 40c higher, canners and cutters 15 to 25c higher. Bulls 25c higher. Calves 25c higher, top on vealers \$14.50. There has been an exceptionally good market this week on all grades of stuff. Keen competition from the packers as well as outsiders. The market however, today is slow but all grades bringing steady prices with yesterday."

"As we predicted last week, hog prices scored an advance of 40 to 50c in the last week, with liberal receipts. Many good hogs have sold at \$11.00 to \$11.25. Prices are over \$2.00 per cwt. higher than any January record. Demand good from all sources and the outlook is favorable for higher prices in the future. Today with 30,000 receipts, with 29,000 over from yesterday the market is 5 to 10c lower. These prices may bring a heavy run next Monday but do not look for them to sell much lower."

WHALE MEAT BRINGS DOWN LIVING COST

Mrs. Joseph Smith, formerly Miss Emma Shuff of This City, Sends Interesting Account of Big Catch From Long Beach, California

Six tons of tenderloin from a single whale was recently put on the market at Long Beach, Cal., and so popular did the meat prove that pork and beefsteak prices took a big drop. S. O. Shuff of this city has received a copy of the Long Beach Daily Telegraph from his daughter, Mrs. Joseph Smith, formerly Miss Emma Shuff, Mrs. Smith herself ate some of the meat and found it good.

The following article from the Long Beach paper tells how the big whale was killed:

"Fifteen miles southeast of Long Beach (captain John D. Loop, veteran boat whale hunter, harpooned a big California gray whale and after a three-hour running fight during which time four bombs were shot in the huge carcass of the leviathan, succeeded in killing off the big fish. Six tons of tenderloin was secured from the whale and is to be placed on Long Beach and Los Angeles fresh meat markets by the Long Beach Tuna canning company, while fully ten tons of blubber were stripped from the mammal to be used in the manufacture of a high grade lubricating oil.

"Captain Loop on board the Camiguin first sighted the whale off Hart's Point, and immediately maneuvered his craft towards the fish which was lazily moving southward along.

"The whale shied at the approach of the boat and headed down the coast, with the Camiguin and the Music trailing off in its wake. Off Huntington Beach finally the Camiguin came within sixty feet from the whale. With a charge of 12 grammes, less than half an ounce of gunpowder, the harpoon was shot from the gun forward.

"It struck squarely in the big whale, which immediately tore off. The leviathan showed unusual fight. Four bombs were shot into vital spots of the big body, and hand-lances were used for an hour before the whale finally succumbed."

"She was hauled on the big scow towed for the purpose by the Music, and a crew of eight men was set to work in cutting the carcass.

"Meat Selling Fast

"Whale meat is selling fast in Long Beach. One retail market disposes of five hundred pounds per day. The tenderloin is selling at 15 cents per pound, while other meat sections with bones bring 10 cents. The high cost of meat is dealt a heavy blow with the advent of whale meat on the market. In Los Angeles several tons of whale meat are now on the market. It is the intention of the Long Beach Tuna Canning company to enter into the trade on a large scale during the whale season.

COUNTY OFFICERS TO PLAN FOR CENTENNIAL

Meeting Called by Judge Thomson for Next Friday—All Interested Citizens Invited

Plans for having Morgan county participate in the centennial celebration of Illinois will be definitely outlined when the county centennial association has been organized. A call for a meeting preparatory to organization has been issued by Judge William E. Thomson and will be held in the office of the county judge at the court house next Friday, Jan. 26, at 1 p. m. The proposal to organize a county association is in accord with the expressed wish of the centennial commission, the idea being that every county in the state shall organize and take part in the celebration. In fact, without county observance the state celebration can not be a great success.

Morgan county people who are interested in having this county take an active part in the celebration are invited to meet at the time and place mentioned above. The county committee includes Judge William E. Thomson, C. A. Buruff, county clerk; Carl E. Robinson, state's attorney; H. H. Vasconcellos, county superintendent of schools, and David Wilson, chairman of the county board.

MAY IRWIN IN "33 WASHINGTON SQUARE"

COMING TO THE GRAND, FRIDAY, JANUARY 26

May Irwin and her company of fun-makers will come to the Grand Friday, Jan. 26th in "33 Washington Square," a dramatization of the novel by Leroy Scott. Miss Irwin has the part of Matilda in the play. She is the ever-faithful and ingenious housekeeper of Mrs. DePeyster of 33 Washington Square, New York. Mrs. DePeyster's troubles begin on the eve of her departure for a trip abroad. Matilda asks her, "Don't you think 27 trunks are enough for you to take abroad?" Then Mrs. DePeyster discovers that the railroad, where the bulk of her fortune is invested, passed its quarterly dividend. She decides that she can not afford to go abroad in proper style and that she can not afford not to go. She solves the difficulty by sending her cousin Olivetta Har-

mon, heavily veiled, to impersonate her on the trip. She remains in concealment in her mansion with only Matilda in possession of the secret. Numerous funny complications arise. Mrs. DePeyster has to leave her home and with the ever faithful Matilda seeks refuge in a boarding house. There the two are treated as menials. Also a forger, impersonating a minister believes them to be women crooks and sticks closer to them than the next minute. Mrs. DePeyster has a son who has taken a forbidden bride from the lowly walks of life. Believing that his mother has gone to Europe, he takes possession of the family home for the honeymoon. Then begins a series of ludicrous situations in the "empty" house.

During the play Miss Irwin sings several of the latest songs.

MURREL BRANER'S
INJURIES ARE SERIOUS

O. M. Petefish Will Leave Today for Los Angeles to be With Nephew Injured in Auto Accident.

Oscar M. Petefish of Litterberry will leave today for Los Angeles, Cal., on account of the serious condition of his nephew, Murrel Braner of Virginia, who was recently injured in an automobile accident there. All the particulars of the accident have not been received by the relatives of the injured man in Morgan and Cass county. The telegram stated that he was traveling with four companions, three women and a man, in an automobile when the chauffeur drove them into an interurban car, which was standing on the track. As a result of the accident the three women and the man were killed, Mr. Braner was seriously injured and only the chauffeur escaped injury.

When a crowd gathered about the wrecked car the chauffeur took the opportunity to sneak away and at last accounts had not been located.

Mr. Braner sustained a compound fracture of the skull, his nose and jaw were broken and his ear was badly cut and he had received internal injuries. It can readily be understood that his condition is very serious. He is twenty seven years old, is a son of Mr. and Mrs. Newton Braner who live near Virginia, and has been resident in California for the past five years, where he has been in the employ of the Edison company.

PEACE WORKERS IN CONFERENCE
Washington, D. C., Jan. 20.—In response to a call of the American Peace Society an open conference of peace workers met at the Raleigh hotel here today to consider a definite program for international reorganization designed to secure a lasting peace at the conclusion of the present war. One of the plans considered was that proposed by Dr. James Brown Scott, official adviser to the State Department and president of the American Institute of International Law. This plan calls for the setting up of judicial and conciliatory machinery for the settlement of international disputes on the lines proposed already by the American Peace Society, and indicated by the deliberations of the two Hague tribunals of 1899 and 1907.

OPPOSE DUTY ON SAMPLES.
New York, Jan. 20.—The American Importers' association has lodged a strong protest with the treasury department against the order directing customs officers to collect duty on samples of merchandise, regardless of the condition in which they were imported. The department has fixed tomorrow as the date for the new order to come into effect. Before the samples of merchandise of widths and lengths have been allowed entry duty free. The importers claim that the new ruling will work an unjust hardship on the trade.

Demand for Tickets is Very Active
—List of Patrons and Patronesses Announced.

That there will be a large attendance at the charity dance to be given in the Priest garage Monday night is certain from the active demand for tickets. Members of the committee who have had tickets for sale state that they have had little difficulty in disposing of them as the occasion promises to be of great social interest and people appreciate this opportunity of aiding such a worthy cause. C. N. Priest, in whose new garage the dance is to be held, said Saturday that he had arranged a surprise program for all those who attend but do not care to dance. He declined to give any of the plans but gave assurance that the program will be entertaining and well worth hearing. STATE AID ROAD WILL EXTEND TO SOUTH

Designating Route for Improvement in 1917—Sum of \$18,000 Will be Available for Work.

At a recent meeting the Morgan county commissioners passed a preliminary resolution designating the highway south from South Jacksonville as a state aid road. C. S. McArtie, assistant division engineer for the highway commission, went over the proposed route Friday to gather some data about concrete construction. There will be an oiled highway of the same kind as that constructed on the Chapin road the past year. The work will begin at the south line of South Jacksonville and extend southward on the road to Woodson and Winchester just as far as the funds will permit.

Approximately \$18,000 will be available for this work, representing the combined state and county funds and this will be sufficient to carry the improvements eight or ten miles. This resolution has been transmitted by County Clerk Boruff to the state highway commission and their representatives will now make the necessary surveys and estimates and then bids will be secured on the work. The action in designating this road for state aid improvement is in accordance with the announced intention of the county board made last year. Their purpose is from year to year to improve highways in different directions from Jacksonville as a central point, with the idea of spreading the money expended in a fair way and one which will be most beneficial to the county as a whole.

WHEELER AND SORRELLS

BUY NEWMAN GARAGE

A deal was consummated Saturday whereby Wheeler and Sorrells purchased the garage of William Newman, Jr. Messrs. Wheeler and Sorrells began at once the removal of the contents to their plant in West Court street. It is understood that Mr. Newman will go on the road for an automobile firm.

The Newman garage was established in 1913 and has been in existence since that time. Mr. Newman was in the hospital for eight weeks last year as the result of an operation for appendicitis and has not been in the best of health since.

Messrs. Wheeler and Sorrells purchased the Modern Garage from David Estaque in October 1915. By strict attention to business they have secured considerable increasing patronage and shows how the business has grown. All of the equipment purchased will be added to their present plant, enabling them to give their patrons even more efficient service.

ILLINOIS COLLEGE NOTES

Friends of the College will be welcome at the Chapel exercises Monday morning. Prof. H. F. Moore, of the Department of Electrical Engineering of the University of Illinois, will deliver an address on "Machines and Ideals."

"Unity," a periodical published by the Lincoln Centre of Chicago, contains an illustrated article on Illinois College. The author of the article is Mrs. Annie Laurie Kelley.

The College community is more than usually interested in the basketball game with Millikin scheduled for Monday night. The injuries to Cox and Tamlinson, however, greatly reduce the chances of a victory for Old Illinois.

The Devotional service at Academy Hall next Sunday evening will be led by Mr. Royal Davis. His topic will be "A Life at its Best."

Ray M. Berry, who has been teaching in the High School at Long Creek, Washington, was in town a few days ago. Mr. Berry expects to register in the Senior Class at the beginning of the second semester.

The girls of Academy Hall were "at home" to the women of the College, and the girls of Whipple Academy, Saturday afternoon during the hours from three to five.

TEAM HAS DISTINGUISHED NAMES

The new team for the hook and ladder wagon in the fire department can boast of distinguished names. One of the horses was purchased several days ago and already had been named Teddy, his former owner evidently having been a Bull Moose. However, the animal is not like his illustrious namesake. Teddy the original was always starting something and at times was inclined to balk. Chief Hunt said Teddy was acting just like he had been in the service all his life.

The other horse was put in service Saturday and from the fact that it was the day of the funeral of Admiral Dewey the animal was named in honor of the great sea fighter. Chief Hunt is well pleased with the team and predicts that they will give the city excellent service.

majority of the points were made because of this and there was not much attempting of sensational and almost impossible shots from the middle of the floor.

However, a number of baskets bordering on the sensational were thrown. Towle made one that brought the crowd to its feet while Clayton for Alton also got a hand from the crowd for two difficult baskets.

The game was a good one for the spectators. It was full of action and was free from fouling considering the speed at which the players were going. During the game Jacksonville had six fouls and Alton one.

The score at the end of the first half was 13 to 6 in favor of Jacksonville. Hudson as usual was one of Jacksonville's best score getters having a total of 14. Hull who played at center also scored 14 points. Hull played a great game both on offense and defense. Towle also played a brilliant game and he and Elrke and Reynolds often broke up the visitor's team play when it looked as though they would score. For Alton, Clayton and Sullivan were the stars. Clayton in particular played a good game and was far superior to his fellow players. The score:

MOTHER! GIVE CHILD "SYRUP OF FIGS" IF TONGUE IS COATED

If Cross, Feverish, Sick, Bilious Clean
Little Liver and Bowels.

Children love this "fruit laxative" and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs" which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Company." Refuse any other kind with contempt.—Adv.

Millions of men and women now eat their favorite foods without fear they know Pape's Diapiesin will save them from any stomach misery. Please, for your sake, get a large fifty-cent case of Pape's Diapiesin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapiesin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.—Adv.

BASKETBALL AT THE Y

Snipes Win Championship of Junior
A League

Saturday morning was a scene of great activity in the Y. M. C. A. Gymnasium. It was the last game of the Junior A League and the Snipes and the Blue Jays were tied for first place. The Blue Jays were minus one of their best guards and this handicapped the team quite a little but in spite of it they played a jockey game. They were a little off in basket shooting too and many times the ball hit the rim but failed to drop in the basket. The Snipes had their strongest lineup and their team work was splendid. The first half the teams were fairly even but in the second half the Snipes team work and the wonderful basket shooting of Capt. Stewart soon showed their opponents under winning the game 15 to 2 and taking the championship.

The second game was a practice game between the Whip-poor-wills and the Cardinals, the former team winning 18 to 2.

Adding Insult to Injury
Four robbers after digging their way thru a two foot stone wall of the Kendallville, Ind. jail, stole the sheriff's automobile and made their escape.

A man was excused from jury duty in Chicago because he could not define the words hypochrosis, compulsion, incompetent, scrutinize, inculpable and preemption. It would be safe to bet that there are not half a dozen lawyers in Chicago who could give the correct definitions of the words, tho they might give their meaning in a general way.

REPORTS ON AFTER

AFFECTS OF ATHLETICS

LAWRENCE, Kans., Jan. 20.—In order to ascertain the after effects of college athletics upon students, Dr. James Naismith, head of the department of physical education of the University of Kansas, and the founder of the game of basketball, has announced statistics compiled after extended correspondence with former athletes. In securing his figures Dr. Naismith sent his inquiries to places on teams prior to 1907, believing these men should by now be able to detect any after effects of the game. The questions were sent to football men as that game admittedly is the most violent of college sports.

To the question "what injuries did you receive while playing football?" forty of the eighty-five replied that they had received none. The other forty-five answered that sprained ankles, broken noses and sprained knees were their most common afflictions. All but six stated they had completely recovered from their injuries. None was reported seriously incapacitated from their participation in the game.

FALL FROM GATE BREAKS LEG

Owings Elmore employed on the farm of C. R. Lewis southwest of the city fell from a gate Friday and sustained a fracture of the right leg just above the knee. Mr. Elmore was climbing over the gate when in some manner he slipped and fell, striking his leg on the frozen ground.

Dr. F. A. Norris was summoned and had Elmore removed to Our Saviors hospital where the fracture was set. It is probable Elmore will

be confined to the hospital for some time as the fracture is a bad one.

Detroit Electric

Save Yourself Starting Troubles by
Driving a Detroit Electric

Winter is here. So are days of starting troubles. Frozen radiators, chilled cylinders and choking carburetors are the common bane of most motorists. How can these difficulties be overcome or avoided?

The answer is a practical and proven one. It is found in the Detroit Electric.

On the coldest winter days, while most men are nursing their cars back to life, the Detroit Electric

owner jumps in his car, turns on the power and is right off. And there is no "bucking" or jerking on the "get-away"—the Detroit Electric runs easily and evenly from the minute you turn the lever.

The power-flow is perfect. It is ample to pull up high hills and through drifted snow and heavy going.

Daily demonstrations are proving these statements true. Try the Detroit Electric yourself. We will call for you gladly any day and drive you to or from your office.

Prices range from \$1775 to \$2375

AFTER SICKNESS

How To Recover Strength
So many Jacksonville people are asking how to recover their strength after sickness that we are publishing this information for their benefit.

After grippe, pleurisy, pneumonia or any illness what you need is new strength and richer blood.

The most certain way to get this is by taking Vinol which contains beef and cod liver peptones, iron, manganese peptones, and glycerophosphates. It creates strength, improves the blood, sharpens the appetite and restores the entire system to a healthy robust condition.

North Adams, Mass.—"After a long illness of pneumonia I was left in a weakened, delicate condition, and for a long time had searched for a body-builder and strength creator. I was attracted by an advertisement of Vinol, and tried a bottle, and soon noticed a vast improvement. I continued its use for a while, and am now as able bodied and strong as any man in town." Samuel Wood, North Adams, Mass.

Try a bottle of Vinol. Your money will be returned if it does not restore your vitality and strength.

THOSE AWFUL CRAMPS

Suggestions that may save Much Suffering

Marysville, Pa.—"For twelve years I suffered with terrible cramps. I would have to stay in bed several days every month. I tried all kinds of remedies and was treated by doctors, but my trouble continued until one day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for others. I tried it and now I am never troubled with cramps and feel like a different woman. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly and I am recommending it to my friends who suffer as I did."—Mrs. GEORGE R. NAYLOR, Box 72, Marysville, Pa.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

WILLARD W. C. T. U. NOTES

Requiescat in Peace.

Rocked in the cradle of the deep, We put King Booze away to sleep, Secure he rests beneath the wave, The waterwagon o'er his grave.

His reign on earth was long and sweet(?) They rolled him in his winding sheet. His red complexion soon will fade, The earth is full of graves he made.

The bar is closed for lack of trade. Old Barleycorn is in the shade. —Trenton Courier. "Far hence be Bacchus gifts! In-flaming wine, Pernicious to mankind, Unnerves the limbs and dulls the noble mind; Let chiefs abstain, and spare the sacred juice To sprinkle to the dogs, 'tis fitter use."

—Homer, 1200 B. C.

The business session of the Willard Union was held at the home of the president, Mrs. Agnew, Wednesday afternoon. One new member was added, which brings the list to sixteen active and six honorary members. Future plans were discussed and decided upon for the good of the Union. A cordial invitation from the Jacksonville Union to join them in a local institute and Willard Memorial to be held February 17, was received. This was unanimously accepted. Crime has diminished to a won-

derful extent. Vagrants and tramps have almost disappeared. Denver used to be considered the best city of its size for police news. And it is running a race for the distinction of being the worst. Were the question of prohibition to be resubmitted to the citizens of Colorado today, there is no doubt but that a majority of those who voted against the measure would be lined up solid for it now. The saloon has been banished from Colorado forever.

The banishment of the saloon brings peace of mind, happiness and some degree of prosperity to many wives and mothers, heretofore tortured by the knowledge that their husband or son was spending his nights, and his money in some saloon or cafe, to physical, mental and moral ruin.

"His earthly tenement Was shattered by her and wine, And his spirit departed Before it was called for." —An early Egyptian Inscription Mrs. Minnie Brubaker, Press Superintendent.

WOMAN'S COLLEGE NOTES

The Home Economics Club held an interesting meeting last Monday, at which there was an exhibit of stereopticon views, showing the entire process of silk manufacture from the silk worms to the finished

product. There was a good attendance of friends. A circle has been formed with the Home Economics Club for the study of everything relating to the making of a home, beginning with the location of a home, plans for building, decorating and furnishing the home, cost of living, etc.

The French Circle had a delightful evening last Tuesday when there was exhibited a travelogue of France showing the principal cities, objects of interest, people and industries of the country. There was a meeting of the French Club on Friday afternoon.

The students remembered the birthday of Miss Mothershead, the Dean, last Wednesday, with a special party at dinner and an interesting program in the Social Room. Saturday night, instead of the usual dinner, a buffet luncheon was served in the Social Room, after which the Association presented a moving picture, entertainment, entitled "C. O. D." The stereopticon and moving picture apparatus, which was installed last spring, is proving a most useful addition to the college equipment, furnishing both instruction and entertainment.

The Day of Prayer for Colleges comes this year Thursday, February 8. The Rev. Dr. Jesse S. Dancy of Chicago, will be a guest of the College, during the entire week, and

will hold special services every morning and evening. Plans are already being made in preparation for this week of prayer in special prayer circles and additional work. The week of prayer always brings blessing to the College in its spiritual uplifting.
